**Editorial note:**

In this issue you will find some historical correspondence. Mistakes in spelling are not corrected because we wanted the correspondence as authentic as possible.

Please keep in mind that English is not the native tongue of the majority of the correspondents. Style of writing and grammar may differ from what you are used to.

Special thanks to Pat Ferrell for historical correspondence and information.

© United Shelties-2006

## THE END IS NEAR.....

Well ,not my end I hope but the end of the year 2006  
The first year of the United Shelties Magazine and I am proud .  
The magazine is appreciated by a lot of people and my mailbox contains hundreds of  
supportive emails from all over the world.  
Appreciation for nice photos, stories and information and no costs.

We will continue on this path and even try to expand and improve our path into a road. A road  
without toll charges or border crossings.  
A global road without roadtaxes nor too many traffic controls.

There have been some attempts to block the path we are going. Attempts from people who  
don't like what we are doing because they don't like it when they lose control.  
Thanks to the common sense of some others however, who support the freedom of speech and  
thinking, our path has been cleared and we are able to continue with what we are doing.

Thank you !!

Last but not least I wish all of you a

***MERRY CHRISTMAS and all the best for the NEW YEAR***

***BOAS FESTAS***

Charles Feijen, Portugal

## PETS AS THERAPY

*Here* in UK, the PETS AS THERAPY organization was started in 1983. At first it was part of the Pro Dogs (Public Relations Organization for dogs) which was founded by Lesley Scott Ordish in 1976, but became a separate organization about ten years ago.

Basically, the organization promotes good dog care and the therapeutic advantages of a pet to the elderly, sick and handicapped.

There are Pets as Therapy (affectionately known as PAT) coordinators all around the country, and if you have a suitable dog (or cat) the coordinator will arrange a temperament test for a dog that is recommended. Health checks are also compulsory.

Once registered as a PAT dog, the coordinator of your area will suggest to you some Nursing Homes, schools or hospitals in your area that you might like to visit, who have asked for a PAT dog to visit. A weekly visit is then appreciated.

18,000 dogs have been registered by PAT since its early beginnings, and there are currently 3,500 active PAT dogs visiting here in UK.

There are fundraising events to help support this organization each year- the biggest being 'The Walk Over Britain' where each coordinator will arrange a dog walk for members of their area. Sometimes celebrities join in with their pets, or will turn up to start a walk off.

PAT dogs are also represented at Crufts each year-where you will find a helpful team at the PAT booth.

Each registered PAT dog receives an engraved ID disc and /or photo tag. Bright yellow leads and collars with PAT printed on them are also available- as are little fluorescent coats. Of course- the PAT dog owner can also dress with a PAT sweatshirt or T-Shirt.

My first registered PAT dog joined me on visits to a Nursing home here in Weston-super-Mare fifteen years ago. He was the dog I talked about in the last 'United Shelties Magazine', who had taken part in the 'Discover Dogs' at Crufts from its beginnings.

This dog was a 'once in a lifetime dog' and was perfect for the job as a PAT dog. He instinctively knew which residents wanted to cuddle him, and which resident needed to be cheered-up, and it was such a joy to see the smile appear on the face of a resident as that gorgeous warm bundle of fur gently lay next to them.

He knew where each of the residents usually sat in the lounge -as they all had their favourite places, and would look for them as we entered. His tail would be wagging frantically and his eyes glistening with enthusiasm.

There were sad times too though- when a chair was suddenly empty. That dog would go and sit by the empty chair and lower his head. He was truly amazing.

In recent years, I have had two more registered PAT dogs. Roxy and Sophie. I'm sure that Roxy 'only goes for the biscuits' Ha! Ha!

But Sophie moves from resident to resident and sits by each person's legs to be patted.

They continued the visits to the same Nursing Home as my first PAT dog had visited until it closed recently. It is certainly a worthwhile organization, and I was proud to be a part of it for many years. Learn more by visiting the PAT web Site-<http://www.petsastherapy.org/>

Jan Grice UK

**July 8, 1925** Montrose Dog Show, Mr. Tait Judge

“W.M. Saunder's Farburn Captain, very nice sable and white in grand coat and bloom, long head, lean skull, good eye and expression, showed well. Alex Yale's Roy of Fetlar, black and white good head, ears and tail carriage, wants time to mature. Dr. Tod and Mrs. D. MacGregor's Chestnut Magnet, very nice tricolour, in good bloom fine long head and Collie expression, will do better later. G. B. Caird's Chestnut Blossom, tricolour of merit, nice size, grand coat, full of Collie type. A. G. Thomson's Tibby, good body, legs and fronts, perhaps a little heavy in ears, nice head and eye. G. B. Caird's Chestnut Bud, the Ayr ch. Cert. Winner, was outstanding, excellent, body and tail carriage, long lean head, neat ears, beautiful soft expression, in capital coat. Dr. Tod and Mrs. MacGregor's Redbraes Rollo, flashily marked tricolour, good body and nice size, long lean head, good eye, needs time. A. Yale's Bobby Dazzler, reported on at Perth. Mrs. J. C. Ramsay's Fresta, very nice little tricolour, good head, neat ears. Jas. B. Belford's Farburn Elma, very smart and showy, good front and bone, short of coat today.”

**July 29**, Musselburgh, N.B. Show, Mr. A. Watt Judge.

“Shetland Sheepdogs-Farburn Captain, excellent head, ears, and expression, capital body, coat, and stern. Redbrae's Sunlight, nice head and ears Redbrae's Magda, lovely head and expression, neat ears, good body and bone, in nice coat. Teviot Sensation, grand coat, very nice head and ears, perhaps a shade low in front. Redbrae's Revival, very typical, good class of skull, and rare good expression. Redbrae's Rollo, good head, expression, and body, not so good in front. Aberlady Cabin Boy, good head, just trifle big, did not show too well. Aberlady Wendy, ideal size, very nice head, not in full coat. Teviot Flora, very typical tricolour, capital head and ears, full of character, gets tail high at times, wants more body.”

#### Shetland Sheepdog Shearings

“Just as he was about to sail last week for California Mr. G. B. Caird was persuaded by Dr. Margaret Tod to part with Chestnut Blossom, which Mr. Caird originally intended to take with him. Blossom is now at Dr. Tod's beautiful home at Clerwood. The partnership between Dr. Tod and Mrs. MacGregor has been dissolved, and their respective studs will now be owned individually as before. Another of Mr. Caird's last sales before leaving this country was that of Chestnut Bud's brother, whose new owner is Mrs. Baker, of the well-known Houghton Hill House Stud.

This has been a rather bad year, so far, in the way of Sheltie show support, and I am therefore all the more glad to hear from Mr. Pierce that there is every likelihood of an improvement in this respect during the coming months. Mr. Pierce also tells me that the arrangements for the Sheltie section at the Metropolitan and Essex Show are now practically complete, although there is just a doubt as to whether Mr. Saunders will be able to judge, after all. The British Association's Breeders' Cups will be competed for (for the first time) at this show. They are “to be won by the breeder of the best dog and best bitch, under twelve months old on date of show; the winner must be a member of the British Association, but need not necessarily be the exhibitor.” The annual general meeting of the British Association will be held on the evening of the Metropolitan and Essex Show, and I believe that quite a number of Scottish members intend being present.

W.H.

An indication of the continued interest in this breed is a number of Town and Country News (August 14) containing illustrations of Shetland Sheepdogs from the Derian kennels, with an interesting article by Miss Dering.

All owners should now be looking up their entries for the Kennel Club Show, the schedules for which are now out. Judging at this show by Mr. Will Hally will be of first rate importance. With a comprehensive classification and a fine array of special prizes the tyro and the novices have a good chance of distinction.

M. Grey

Mr. J. Rae of the Dondy Kennels, has bought from Mr. Knight the bitch Primrose, which was reserve for the challenge certificate at the recent Ayr Show under Mr. J. G. Saunders. Mr. Rae has just completed the erection of very extensive kennels for his shelties, necessitated though the ground on which his former kennels was built being required for other purposes."

**September 2**, Dundee Show, Mr. W. M. Saunders Judge

(On this clipping they are listed as Shetland Terriers) "Farburn Adjutant, a sable with lean flat skull, small dark eye, capital foreface, neat ears, good texture of coat, wants time to grow more of it; won through to best of breed. La Perla, a sable with capital head, eye, expression, nicely rounded foreface, fair coat; just size enough. Dyce Beauty, sable and

white, nice head, ears carried a trifle low, rare foreface, coat; his stern is not his fortune. Bonnie Lass, a quality black and white, nice head, fair ears, wants time. Teviot Sensation, a tricolour, nice ears, well carried, good coat, legs, feet and size. No No Nanette, a grand headed specimen, beautiful ears correctly carried, expression splendid, good body, legs and feet, up to full size, not in best coat today. Bobbie Dazzler, the Perth winner, nice coated dog, correct size, nice ears, well carried, good body, legs, and feet. Aberlady Wendy a typical specimen, lean flat skull, good size, in nice coat, form."

### **USA Therapy Dogs, Sheltie style**

**Our** 3.5 year old blue merle Sheltie, Jenna, and I are members of a visiting pet therapy group called Lake Superior Paws For Love, Inc. Since 1994, the human and canine members have made visits to nursing homes, schools, the mental health unit of the local hospital, and participated in many community events. The group also gives the Canine Good Citizen\* test 3 or more times a year. In order to be considered for this type of work, each dog/handler team must pass this test. They are also tested for their reaction to walkers, wheelchairs, crutches, 'hard' patting, etc.

Besides Jenna, we have 2 Flatcoated Retrievers, one of which is also a certified therapy dog. LSPFL is self-insured. To date there have been no incidents, but knowing we have the insurance coverage is important to the schools and nursing homes as well as to the individual group members.

Some Shelties are better suited than others for this type of work. While Jenna prefers visiting the senior citizens, she has made school visits, as you can see from the photo.

She's actually happy anywhere there is a lap in which to sit! For the schools, we do a presentation about how to be safe around dogs. Children as young as 3 and 4 will easily learn and remember the main concepts, often better than their parents! Jenna also shines at community events. This past August, at the annual Senior Expo Day, she happily greeted visitors and became "a star" by having her photo on the front page of the daily newspaper.

Just as with any of the activities in which we participate with our Shelties, therapy visits can be stressful. Owners must know what their dog

(AND THEY) will do in unfamiliar surroundings and/or stressful situations. This means constantly watching for any signs of stress. For example, nursing home visits typically last 45 minutes to an hour, but, if, after 30 minutes, Jenna is panting, and/or trying to get my attention, it means we need to take a break.

In addition to watching for signs of stress, the owner must be aware of anyone trying to hand food or, worse, their pills or to the dog. This includes making sure there aren't pills or food on the floor. In summary, therapy visits with your Sheltie can be very rewarding for them, you and those you visit. I have only touched on the highlights of my experiences, so questions welcomed.

### Shetland Sheepdogs in Italy, past and present....

When I was asked by Charles to write some lines about the history of the breed in Italy, I pointed out that we do not have the huge background in the breed as many countries have, but still there have always been some very passionate breeders who have kept the flag flying.

I then digged out of my big box a letter that was sent by the honorary president of our Italian club, Mrs Vera Corsiglia Urbani, when I asked her, many years ago, to send me some photos of the first shelties in Italy, imported by her father.

That is what she wrote:

*In 1952 Mr. Umberto Corsiglia, who hold the prefix "of Villa Gaia", imported from England the first two Shetlands in the country, both were English champions, the sable dog Ch. Garniehill Tulyar, bred by Ms Shearer and the sable bitch Ch Beeswing of Exford, breder Mrs. Sangster. Both became Italian and international show champions. From these two dogs Mr. Corsiglia bred 2 sable bitches Betti di Villa Gaia and Birba di Villa Gaia, which also became Italian and International Champions. Later on, Mr. Corsiglia imported another English champion dog Ch. Antoc Francehill Fortune, breeder Wisberley, who also was made up in Italy. To be noticed by the photos that the first shetnald, arriving in Italy were pretty different from todays dogs in head, size and coat....*

*On the left GB. - It. Int. ch Garniehill Tulyar, in the middle near the little girl GB. - It - Int. Ch. Beeswing of Exford, on the right one of the two daughters either It. - Int. Ch. Birba or It. - Int. Ch. Betty di Villa Gaia (to the best of knowledge)*

As far as I know, Mr. Corsiglia didn't carry on breeding for many years and we have to jump ahead a few years to find other sheltie breeders.

*in the back GB. - It. Int. ch Garniehill Tulyar, in front, on the left GB. - It - Int. Ch. Beeswing of Exford, on the right the other of the two daughters either It. - Int. Ch. Birba or It. - Int. Ch. Betty di Villa Gaia (to the best of knowledge)*

Another remarkable kennel of the past was Daisy's of Mrs. Marcella Lavoratti Vannucci. She first imported some dogs from England, but everybody has lost track of those dogs as she died some years ago, she had no children and her friends were not dog persons.

She then started importing some Swedish lines, I remember she was used to saying that she could find better flat skulls in Sweden than in England. Probably the most famous dog she bred was the Italian and International Champion Daisy's Xavier, born in 1986, a son of two of her Swedish imports SUCH NUCH It. Int. Ch. Moorwood Wild Image (a son of Ch. Ingleside Copper Image and of a daughter of GB Ch. Rhinog the Gay Lancer ) and of It. Int. Ch. Westpark Olivia (a daughter of Int. Ch. NORDUCH Shelfrect Stroller). Daisy's Xavier was an important show dog of those years but also was a famous sire.

*Daisy's Xavier*

Later on she imported a little blue dog from kennel Zarvos in Danemark, called Zarvo's Secret Blue Moon, who had US origins (Rosewood lines) and was bred on by other breeders when Mrs Lavoratti, due to serious health problems, in the late years of her life, had to place all of her dogs with other sheltie people.

That line can be found now in the kennel Enfy's of Mr. Bertarini. He started his kennel with an English sable dog It. Int. Ch. Tesoro Wish Upon a Star, and an English tricolour bitch It. Ch. Landover's Enfys.

*a trio of kennel Enfy's*

*from the left It. Int. Ch. Tesoro Wish Upon a Star, It. Ch. Sincerely to Enfy's di Selvaspina, It. - Int. Ch. Painted Arabesque*

At the time Mr. Bertarini had the bitch Ariom Kildare – herself bred by an English lady who had moved to Italy, Miss Moira Holland, whose most famous dog was Ch.

Ariom Tamoshanter, well known in the Scandinavian countries – and mated her to Zarvo's Secret Blue Moon, producing his blue champion dog Painted Arabesque. The foundation lines of this kennel were melted and produced some nice stock that are been at the moment.

*Picture page 11 : It. Int. Ch. Tesoro Wish Upon a Star (left) - It. Int. Ch. Painted Arabesque (right)*

Another breeder who has out a numerously moderate breeding program is Mr Brusà of kennel “Medfield Place”. He started on by a blue bitch of Mrs. Lavoratti, Ch. Daisy’s Celia, who he mated to a French dog producing the tricolour bitch Ch. Aran Black Island, who had some success both in the show ring and in agility. He then imported a Swedish dog who became an Italian champion Ch. Moorwood Caribbean Night Rider, and is now carrying on his breeding program by a Selvaspina bitch called Pole Position di Selvaspina, herself going back to Mrs. Lavoratti’s sable and blue lines on her mother’s side of the pedigree.

*It. int. ch. Aramaica Jade (It-int ch. Tesoro Wish Upon a Star x It. Ch. Landover's Enfys)*

Then I will mention to you the kennel “di Selvaspina” of my friend Anna Albrigo.

The foundations of this kennel were three imports: the first was the blue Italian and International ch. Sonymer Blue Memory by Herds it’s Hindsight (mainly Riverhill

lines) out of a grand daughter of GB Ch. Sonymer Silverbell and GB Ch.

Drumcauchlie Bumble Boy, the second was the blue bitch Italian and International Ch. Hanburyhill Hoar Frost, by GB Cultured at Cashella out of a grand daughter of GB Ch. Beckwith Bit of a Vagabond at Shelmith

and GB Ch. Ruscombe Silver Lining, the third was the sable bitch Italian ch. Sonymer Seductress to Mohnesee, a daughter of GB. Ch. Crisanbee Goldsmith at Myriehewe and out of a grand daughter of GB. Ch. Sonymer Sheena.

From those three imports Mrs. Albrigo bred an elevate number of champions, if compared to her numerously moderate breeding program.

The most famous dogs are probably my own multi champion True Love di Selvaspina and the multi champion Harlequin di Selvaspina, but also to be remembered the Italian and international ch. Black Side of the Moon di Selvaspina, and jumping ahead of some years nowadays show stars multi champion Somebody to Love di Selvaspina, the Italian ch. Hawaiian Holiday di Selvaspina and the Italian ch. Cristal Chanel di Selvaspina.

Alfredo Gili, Italy

*Harlequin di Selvaspina*

Note from the editor:

I received a copy of the first Italian Champion diploma from Alfredo. In that year 1954, Shetland Sheepdogs were not known as a breed in Italy. The diploma was awarded for a "Collie nano" which means "dwarf Collie".

Camp. I.  
Camp. Ass.

*Apart* altogether from the interest attaching to the large and high quality lot of exhibits which Mr. W. M. Saunders (who was accompanied by Mrs. Saunders) so brilliantly judged at Dundee last week, that show was all the more pleasurable because of the meeting with so many fanciers of the pre-war and post-war schools. Mr. Keith of the famous pre-war firm of Keith and Ramsay, was exhibiting Mr. Watt's La Perla, in the absence of that exhibit's owner. Mr. Ramsay was stewarding, assisted by Mrs. Ramsay, and in their kennel they have now got a very fine little stud, sales have been averaging one a week, and the young stock is of exceptional promise. It was like old times too, to see Mr. Graham Clark in the ring again, especially when Farburn Adjutant ran through all his classes and finished up as best Sheltie. Mr. Yule and Mr. Duncan from Aberdeen, were doing well with their exhibits, while Mrs. Alexander was ably helping her husband to handle the Teviots. Mr. Pierce sent No No Nanette to be best bitch (she showed splendidly in Mr. Keith's hands) and Mrs. Goddard was successfully represented by Aberlady Wendy, who has done such a lot of winning this year.

Mr. J. G. Saunders paid the brotherly compliment of entering Farnell Scottie, but not bench him.

On the way to lunch we met Mr. Fordyce Burke, whose wife's exhibits were wo prominent in pre-war times. He, too, has been going through some of the leading kennels and he was one of the most interested visitors to the show. Mr. And Mrs. David Parker had the secretarial arrangements so complete that they managed to meet many old friends of Sheltie days.

The question was: "Will ye no' come back again?" The answer will come along presently. Mr. Scott Souter was full of enthusiasm for Shelties, and as his wife is as zealous as himself, I expect the influence of the now well-stocked Laurencekirk stud will soon be effectively felt. W.H

Following only a week later than the great show of the Kennel Club, entries for which close on Monday, September 14, comes the Scottish Kennel Club show at Edinburgh, and exhibitors should not forget the one when entering for the other. Mr. Will Hally will judge at the English show and Mr. James Rae at the Scottish. Later on, the third important show-vix., Birmingham, in December, when Mr. Holgate will judge-completes a fine trip of prize-lists and club trophies offered for the breed with the complete opportunity of winning a championship in a short time.

Those who are interested in Sheepdogs generally, or in blue-merle breedings specially, will be interested in last week's article in "Country Life" on the varieties of Welsh sheepdog, Ci Tylwyth Teg - "the dog that can see fairies" Of one of the Sheltie-titles to be the "peerie" or fairy dog.

M. Grey"

## Agility shelties in Latvia

**Agility** – is one the most popular sport with a dog in the world. Agility came to Latvia in 1995, but the first competitions was some years later. There was no shelties on this competition, because we hadn't agility shelties at all! The most popular breeds at that moment were German shepherds, Rottweilers, Dobermans, but these breeds can't run as fast and agile as shelties can!

For the first time we have seen the sheltie at the international competitions, they were simply charming. These small and quick dogs got up simply to miracles - watched each gesture of the owner, were ready to execute any command. It also became a determinative in a choice of breed for Latvian mini-midi agility. Now dogs of this breed are most popular in agility, and not only in Latvia, but also in the world.

The first sheltie for agility has appeared in Latvia in 1999, now we have about 15 dogs. Much of them already many times rose on a pedestal at competitions of the most various level. In Latvia there are Champions of the Europe-2006 and prize-winners of the World Agility championships in 2003 and 2006, and even the first Agility INT Ch!

- **Ice**

The first agility sheltie in Latvia came from Estonian kennel Scandyline. His name is Scandyline Ice and Fire(owner Lidia Belyaeva). For that moment we hardly knew, how it is necessary to train sheltie for agility. Therefore Ice became our "feeler" on which many

mistakes and conclusions have been made. Not having begun career Ice has broken a paw, so on rehabilitation cunningly some month.

Fortunately, Ice recovered and show to us, what small shelties can do! This small miracle though possesses strong character, but very much does not wish to upset owners. For this reason from first trainings Ice has proved to be the present fighter. Already in 1,5 years it acted in his first World Agility championship in Finland, and in 2003 was a medalist on World Agility championship in France with Latvian mini-team.

Now Ice already is Agility LV Ch, RUS Ch, LT Vice-Ch, has 2\*Res. CACIAg, many beautiful victories over large and fine competitions. Ice for ever remains in history, as the first agility sheltie in Latvia. While, it is going to be overcome a little more for prize-winning places and to show everything, what small working sheepdog can do!

- Fly

Later half a year after arrival Ice, to Latvia came one more agility sheltie from Lithuanian kennel Istikimybe. Her name is Hearty Sportswoman Istikimybe(owner Svetlana Kreslina). Small Fly also has broken a paw, fortunately, has quickly recovered.

Today Fly – is the most titled agility sheltie in Latvia. Practically with first performance Fly has begun the triumphal procession on all competitions. Fly became the first INT Ag Ch in Latvia! Together with her owner Fly became the prize-winner of the World championships twice, and also has received on World Championship certificate Res. CACIAg. For today " in a coin box " Fly has titles: Agility LV Ch, LT Ch, EST Ch. Add to it also title BALT, LV, LT, EST Ch on dog shows. Than an ideal sheltie?!

To be continued...

Lidia Belyaeva, LATVIA

## My first half-American litter.

Dar Winning Edge	Dan Dee Tara Hill Infiniti	Arenray`s Reminisce ROM
		Dan Dee joy At Tara Hill
North Sheltie's Simply Special	Ha-Dar Watch Out Woman Driver	Ha-Dar City Lights
		Ha-Dar Driv`n Miss Daisy
	Marnham Montanner	Milesend Dancing Major
		Kelgrove Wanda To Marnham
	St. Kilda's Simply Splendid	Moorwood Handsome Fronrunner
		St. Kilda's Victory Made

When I was going to mate Nuch North Sheltie's Simply Special "Mali" for the first time, I was never in doubt which male to use on her. It had to be Ha-Dar Winning Edge, an American import to Norway. Mali was almost 3 year of age, and I found it was time to have the first puppy-litter from her.

*Picture from Lofoten Summer 2006. Father of the litter Ha-Dar Winning Edge BOB, and the litters mothers mother Nuch North Sheltie's Simply Splendid BOS at the age of 10 years. Judge in the middle Birte Scheel, and owners Laila Lauritzen and me.*

I was warned for the combination, when some people said the puppies would be too big and coarse. They also said American puppies have big heads and that I could expect trouble during birth because of this. Mali is quite a small girl, so it worried me a bit from what I was told in advance.

Time passed, and at home we waited in excitement if she was pregnant. After 3 weeks I was quite sure, she carried puppies. Then I really started to worry, think if what I had been told was correct?

4 days before delivery she started with the first signs of birth. Terrified I just wanted it over and done. I contacted the vet in case it would be difficulties. But my fair was without reason. The delivery itself went extremely quick, Mali had no problems at all, and she gave life to 3 healthy puppies in less than 2 hours. And the funny thing, the puppies looked just like all the other puppies I have had earlier from pure English lines.

Some new experiences were to come though. The bitch-puppy got colic, and we needed to see the vet when she was 9 days old. The vet was quite shocked when he saw her. For the first she had already one eye open, she had that 7 days old. For the second she walked around on strong legs. Yes, the puppies walked on their own feet 1 week old, all 3. They never crawled on their belly, but walked around on 4 feet. I had never seen this before, but I saw they were extremely strong in their hind legs.

If it was the American blood, I don't know. During development the next weeks I also saw that they were much stronger in their bodies and their legs than I was used to from earlier litters. 3 weeks old they jumped around. From 5 weeks they denied to be in the puppy-pen, and they walked around in kitchen and living-room, together with the other dogs. Of course they needed to be in the pen when we were not at home.

And what lung-capasaty. I could have been without just that☺. What a noise, especially at night when the others living in the house wanted to have some sleep. It was times when I really looked forward to the new owners could come and pick them up.

***Mother: NUCH North  
Sheltie's Simply Special***

I told the new owners about their American bloodlines. Personally I found that fair to do, since it is in Norway some people very much against this.

Would they be big and coarse, was my next worry. Well time would show.....Today they look nice all 3, they have developed into correct size and standard type all of them.

It was fun to study their joy of life, how strong they were, and how extremely healthy. No bad stomachs, they could eat everything we gave them. At the vet for ID and vaccinations 7, 5 weeks old, both the males had their testicles down in scrotum. The bitch-puppy was eye-checked at 3 months, and the vet told it was rare to see such blue eye-background in a sheltie. She was clear on eyes, and the vet also said she will never have any eye-diseases. The reason for the late eye-check is that in North we need to do this when it is Norwegian Kennel Club shows with a specialist in eye-diseases.

If all this is just a coincident, or if the American type really has stronger hind-parts, testicles and eyes open so early, I really don't know. But it was a big difference that is for sure.

Will I try this once more? Yes, the combination is already done and the new litter is 3 months already. I have learned so much from this wonderful combination fitting so well. And also not to worry, whatever people tell in advance, as long as they have no experience themselves.

Anne Haugstvedt,  
Kennel North Sheltie  
Norway

*The editor of the magazine has kept an eye on the development of the two litters in the combination on a regular basis. Here an impression in images.*

The puppies have been shown during 2006, and the results tell that they fit the standard quite well.

*September 30 & October 1, 1925*

**Alexandra Palace, Show**

“Farburn Adjutant, a very typical Sheltie, with beautiful body and good action, legs and feet; he showed well, and his ears are not only correctly placed, but he used them; he ran through all his classes and eventually took the dog certificate. Dondy Cyrus, a beautiful fully-headed dog with grand action and tail carriage, though when standing still he holds one hock rather funnily; he has real Collie coat, and he also made the most of himself. Kilravock Goldfinder, I don't know what she might have done in this class had she shown well, as she is a lovely little Collie with grand action and very nice size; a real taking Sheltie, which later won the bitch certificate, and will, I imagine win a few more yet. Ptolemy was one of the good showers; a black and tan, not quite so fine in skull as the leaders, but possessing very good body and legs and has supple action. Jan of Greyhill is very typical, lovely head, coat and body. Holly of Greyhill, another taking little Collies with very good movement. Dondy Primrose a well proportioned black and tan with nice outline and movement, strong back and hindquarters, long taking head; she showed much better in this class than in puppies. Lassie of Mountfort, a glorious sable and white with a perfect coat, legs, feet, beautifully shaped body, she is not quite so good in skull as those above her, and though she moved with absolute soundness, she carried her tail very gaily, and that was one of the faults which the failing light did not hide. Some other exhibits lost rather heavily for this same handicap, which perhaps I pay too much attention to, but to me it spoils the picture. Redbraes Magda, a long headed tricolour, lovely action bone and body...”

**September 26, Edinburgh Caledonian Canine Society**

“Redbraes Magda; neat ears, good body and coat, nice size, and very sound, Glenugie Roy good coat, nice head and ears, shade big. Glenugie Myra, nice showy black and tan, hardly so nice in head. Glenugie Bess, black and tan, fair body and coat, shorter in head.”

**Edinburgh Championship Show, Mr. Rae Judge**

“The entry of 63 under Mr. Rae shows to what extent the island dog is taking on. The judge gave every exhibit a full test, and I should think fully appreciated the splendid entry accorded him. Farburn Adjutant, a lovely sable and white, long clean flat head, good eyes and well carried ears, sound, and just the size, grand legs and feet, tail well carried. Chestnut Lucky Boy, has grand Collie expression, well-made head, carried his ears a trifle high, grand tricolour coat, fair front, good size, well-carried tail. Fairgarth Funzie, on nice racy lines, good legs and feet, fine length of head, not in best coat. Jan of Greyhill not in very good coat, a tricolour, good head, nice eyes, good size, a bit shy. Redbraes Magda, rare colour, excelling in Collie character, beautiful head, well-made body of the right size and good coat. Kilravock Goldfinder, a very nice sable, quality head and eyes, good bone and body, did not make the most of herself. Helensdale Trix, good length of head, quality tricolour coat, carries ears well and moves soundly.”

Eltham Park Evelyn, a good tricolour bitch, heavy coat, long sweet head, and well-carried ears, good size and sound. Bonnie Prince, rare coat bloom, just size enough, long head, and well-carried ears, good bone. Chestnut Blossom, grand coated tricolour splendid made head of good length, carries ears well and good size, nice tail carriage. Redbraes Magda won the certificate for bitches and special for best in show. Farburn Adjutant won the certificate for dogs.-Forbes Grant.”

November 12, 1925, Alexandra Palace, W. M. Saunders, Judge

“Eltham Park Eureka, about the best Sheltie that has yet been produced, excelling in head, foreface, eyes and ears with grand coat and the ideal size, ran through all his classes to championship. Farburn Adjutant, the K.C. and S.K.C. championship winner, fails in ears and expression. Kilravock Goldfinder, another quality puppy with true Collie character. Dusk of Destiny, a really nice tricolour with good head and foreface. Hector of Woolpits, another tricolour, fair head and ears and good coat. Novice-the only new face was Eltham Park Elfreda, another quality young bitch with true Collie outlook.”

## «Russian landing» in the World Dog Show-2006

19 Russian participants have taken part in the World championship in Poznan. For the first time the supreme title has been awarded sheltie with the Russian breeding! Three more dogs from Russia (all - the Russian breeding) have won titles JWW, Jun Vice-Champion and Vice-Champion.

Hello,

Greetings from The Netherlands....

My name is Betsy van Nijen, together with my daughter Patricia  
We own kennel Secret Mystery...in The Netherlands..

We own Shelties since 1988  
but breed and show them only since 2002.  
During these 4 years we have been quite successful and nearly all our dogs have gained a  
Championtitle or a reserve title..

Tess became a champion and BOB in 2006. Her pedigree is fully English.

*Joya: Secret Mystery "Dressed for Joy "(r)*

*Tess: Secret Mystery's "Sweet Temptation"(l)*

Joya became a champion in 2005. Her pedigree is a mix of English and American  
Pedigrees, just as the pedigree of her brother Mitch.

Mitch is a wonderful show dog and became 2nd at the Dutch Sheltie Club's special  
Show in 2006 in breeder's class.

*Mitch: Secret Mystery "Dressed to Pleasure"*

However, breeding and showing do not always  
have top priority in our lives.  
We very much enjoy working with our dogs....

We enjoy...agility—fly ball---obedience---herding---and fun games

Only recently we imported an Am/Can male puppy.  
We hope that he will grow out into a star and that he will be able  
to contribute a positive donation to our breeding stock.

We wish all readers a Merry Christmas and a Happy New Year....

Betsy and Patricia,  
The Netherlands

## "Baby" on tour.....

*Text: Arnhild Carlsen, Kennel Croft*

*Pictures: Charles Feijen*

Already before Croft's Roll Over Lay Down "Baby" was born in December 2005, we had decided to travel to Portugal for a period. When she reached 3 months of age it was therefore needed to start her rabies-vaccination program, and she finished that with a blood-test just in time before we left Norway in the beginning of October 2006. The adults also finished their vaccinations, and all passed the titter-tests to be able to return to Norway again after the stay abroad. 6 Shelties, 1 Drent and 2 old Persian Cats went on the move together with us, and it was quite a funny sight when the car was packed, the caravan hooked on, and we finally went on the road. The last 2 puppies from our Summer-litters were delivered to new, happy owners on the way to the ferry in Kristiansand. One sheltie went off the load at friends in France, and the rest of the gang continued the journey through Europe.

We drove through Denmark with one day stop, then to Germany for 5 days. This long stop was not planned, but the caravan broke down and we needed to have the brakes repaired before we could go further. After two nights in Luxemburg, we did a long distance to our friends under the Alps in France. We had a nice stay with Laure and Cederic at kennel

Lblorece, their 4 children and a bunch of shelties for 4 days. The journey continued through France with one stop in Toulouse, then to Valladolid in Spain and finally we reached Portugal the 18.th.of October 2006. After 14 days and almost 5000 km on the roads. The

animals just loved the trip, and they behaved extremely well all the time.

Well settled in Portugal with our little zoo, a big amount of cages, dog-fences and even an own dog-yard for the Drent, we looked forward to experience the new environment.

It started with a heavy storm the first day, and to put up everything became a real challenge. The storm, thunder and flooding, continued for 14 days, it has not been worse here in human memory. At nights we were out in our underwear plugging storm-straps, and we still can't believe that the tent survived the first weeks. Wet dogs, wet clothes, dirty shoes, even the beddings got muddy in the end. The dream about summer and sun faded out as the days went on, but finally it broke through. At last we were able to see what lovely country Portugal is, and what a beautiful nature we have around us.

Where we live we can take the dogs on long walks, running free every day, and they enjoy. They are on the run for kilometres every day, and the hunting-dog Dronnia trains hunting for partridges in the bushes.

One of the purposes to go to Portugal beside this was of course to visit dog-shows.

We had entered the first 3 shows already before we left Norway, and the first one was held the 19.th.of November in Braga. This is a lovely city up North, close to the Spanish border. Our biggest problem was how to bath the dogs before the show. From the red earth and all the rain, they were totally yellowish pink in the white. I had to dig in my grooming-bag for a good shampoo, and we took the dogs down to the river near by. It was a warm sunny day with 25 warm degrees, so

the show-bath became a success.

I think we might be the first ones bathing dogs for show in the River Mira with turtles swimming around....

We had to pack the car again, and drive 600 kilometres from where we live in the middle of the South. On the way to this show, another storm showed up, and we reached our destination at ten the night before the show. We drove through the Douro-valley, and got lost 200 kilometres from Braga in the dark and rain, despite our always reliable GPS. It was raining cats and dogs, and the apartment we had hired was just as wet inside as outside. When we woke up in the morning the bed was floating in water, and it was totally impossible to have the woodstove to burn because of the humidity. Everything is relative; our first plan was to

sleep in the car. That would have been impossible. We headed for the show early in the morning, and benched by the ring as the first exhibitors that day. What a show the Portuguese can make. It was a lovely show-hall, beautifully decorated and with a lot of stands. The people were friendly and helpful, and took extremely good care of us crazy people driving 5600 kilometres to enter our dogs. Even before we entered the hall it was already known that it was a car outside with green Norwegian license-plates....the Vikings had arrived.

It is extremely exciting to enter a show in a new country, to see their dogs and study the rules and the judging.

This first show we had only entered two shelties in open and junior, since it was a national show and we needed CC's only. The champions were no use to enter, as they are going for their missing Cacibs later to try to become International champions.

Our Drent was also entered in open class as she has just passed the age of 2 years. Both our breeds went for the same judge in the same ring. The shelties were called in first. Baby had not been to shows since 2 months, so I was very curious about her behaviour. The judge was a sweet lady from Latvia, and she gave Baby a wonderful critic and Ex1. After her it was her mother Sheltibo's Dirty Diva's turn, and also she got a lovely judging and the CC. The rules

here say that a junior can not have a CC. Charles and I entered the ring again for Best of Breed with both the girls, and the judge told she liked both, but she preferred the youngest.

Baby became Best of Breed, and had to enter the big ring later in the day. Dronnia Drent was next, and also she got her CC and BOB. It has to be mentioned that we had the only shelties and Drent at this show, so they had no competition in the breed. The comfort was that the judges were very experienced sheltie-judges, often judging the breed in several countries.

After the judging we spent the rest of the day looking at the other breeds, a pleasant and exciting thing to do. Some special things are pictured in my mind....All the beautiful, muscular dogs of much better size than in Norway. Most of the dogs in wonderful condition and show-preparation. The unforgettable wild double-handling of the Rottweilers. All the chalking. And last....the Golden Retriever that got a boost of something from a big brown bottle before entering the group-ring.... What was in the bottle we don't know...but it reminded very much of cognac....The dog got a happy, smiling expression and entered the ring with great comfort. The handler's steward wrapped the bottle in a towel, and left the collection-ring as if nothing had happened. I would like to see something like that happen at a show in Norway.

Before two in the afternoon 2500 persons already passed the gate just to look at the show. It was so fun to watch them enjoying the dogs, and especially the shelties which is not a very common breed down here.

We expected the big rings to start around three, since the arrangers started to prepare. We waited and waited and nothing happened. Then we got to know that it was a lot of special shows at the showground after the ordinary judging finished. In the mean time they had a lot of entertainments, with music and the fire-brigade and dog-clubs showing their working-dogs. It was show of high class and very nice for the people to watch. Then we understood why it was so many people coming just to have a look. This was much more than just CCs and a dog-show.

Finally after a lot of music and fanfares, it was time for the group-finales. They started with a Best in Show competition between the promising juniors that can't take a CC yet. It was split

up into males and bitches. We had really no idea what was going on, but thanks to a very nice steward, he asked me to enter the ring when the junior-bitches had to enter. Baby was already

scheduled as winner of the breed. While waiting in the collection-ring a man came with an ID-scanner and scanned all the dogs. On our numbers it was also put up the id-number on each dog, so easy for him to see that correct dog was in the ring. Entering a big ring with several thousands of people watching, gave me a little bit of heart-beat. I don't think I ever experienced anything like it...and also the music as we walked in made it very serious. We lined up the best we could, and another Latvian judge was to pick the best junior-bitch...It was almost 30 different dogs and breeds in the ring...so Baby and me both felt a little lost. She had to choose a few she wanted to look closer at, and we were called in to the middle. She wanted to keep 3 dogs for the BIS, and I could not believe my eyes when we became 2.nd.Best In Show junior of that many.

Well out again in the collecting-ring, we started to get a bit worried. Since we don't speak one word Portuguese, we had to follow everything very carefully. The steward was patient with me and all my questions, and in the end I felt it was most secure just to stay in the collecting ring all the time. Finally he tapped me on my shoulder with a big smile, and we were shown the place for entering the group 1-ring. It was 10 lovely breeds in total, and as usual we looked at it as a bonus with a placement, and nothing else.

The third Latvian judge was judging the group, and to our big surprise we won! I have never been so happy in my whole life. During the picturing, the judge told me that she had shelties 15 years ago and she loved Baby. The Baby itself was totally unaffected, only looking curious

on all the mess around her. Charles entered group 7 with Dronnia, and he handled her beautifully to a 2.nd. in Group. What a day!

I wondered how Baby would behave when she had to enter for Best in Show, only 11 months old and not been to that many shows before. As the winner of group 1 we had first place on the line for entering. We were placed straight under two big loud-speakers with extremely high music and she had a big Molosser from group 2 in her bum.....but still totally unaffected.

That is the effort of a puppy growing up with a big Drent in the house.

We were not picked out among the 3 final Best in Show winners, but that was very ok. The 3 winners were lovely adults and some most winning during the year in Portugal.

The show ended at 19.30 in the evening, and a long, worky day was over for both people and dogs. When

we started to pack our things and go home, we could just forget about it. All the public came to say hello to the little Baby, and it was wonderful to hear them praising the breed and the sheltie-girls so much. I don't know how many children stood in a queue to pet Baby's head and soft coat. That made our day something special.

Well home in the hired apartment, it was wetter than ever. During the day a big thunderstorm passed the area. The conditions were not very good for my asthma, especially since the walls in the bedroom were full of fungus. I spent the night mostly sitting in bed with my in-healer, and early in the morning I packed all our things and wanted to go home. Our intention was to stay in Braga for one more day to visit the city, but the wise thing to do was to go back to the South and hope for dryer weather.

It did not become better.....400 ml of a yearly amount of 700 ml average fell during 4 weeks. I cried and cleaned dog-beddings by my hands in the pissing rain. The good thing after all was that we could spend the days in the car visiting the most of South Portugal. Driving from South to West we saw a lot of the country, and it is a memory for life.

3 weeks later the dogs were entered for the next two-day Christmas-show in Bathala, a small, beautiful city between Lisbon and Porto. This time we booked a nice hotel, to be sure to keep dry.

14<sup>th</sup> century (view  
from our hotel)*

On Saturday the 9<sup>th</sup> of December it was a special-show for herding dogs in group 1 with the needed CC - CQ, and Sunday an International show

for all breeds. The show on Saturday started 14.00 in the afternoon, so we could leave from home the same morning. In fact it was a huge animal-exhibition that weekend beside the dog-show, and also a cat-show in the same hall. We were as usual in good time, and entered the hall when it opened. Also this time the hall was beautifully decorated, and it was possible to see everything from dogs, cats, birds, fish and even ducks and chickens, a wonderful atmosphere and exciting for both us and the public.

The Portuguese Collie Club held the show we had entered. We had an appointment meeting Dutch and Portuguese friends, and got really worried when the time went on and nobody showed up. Neither did the judge and the steward, but experienced from last show, we had learned just to wait patient. Lucky for our late friends, the judging finally started at 15.30, this is Portugal, finally all on their places.

With 4 dogs entered, we soon realized that we had a big problem in the winner-classes, only the two of us to handle. After a quick look in the catalogue we saw that Lucille was entered as a champion male, instead of female. Diva was not entered at all, and she was the one that needed the CC that day. Thanks to a lovely

president in the Collie-club he managed to solve the misunderstandings, and the judge accepted the late entry of her. The judge for the day came all the way from Slovenia, and our Portuguese friend had the job as a steward. In total around 12 shelties were entered, several from France.

Baby went in as the only junior, and got her excellent. Diva next in open class, she got excellent and 2<sup>nd</sup> with the reserve CC. Our Dutch friend got the CC on her beautiful blue bitch, and by that

became a Portuguese champion. We were all extremely happy for that.

Our 2 champions Lucille and Nana got their excellent and Lucille won champion class. We managed to handle since Diva and Nana went out of the last competition.

Best dog and CC went to a tricolour male from France. Best bitch and Best of Breed our Baby, with Manouk the blue bitch on 2<sup>nd</sup>. Lucille on 3<sup>rd</sup> and blue French bitch at

4<sup>th</sup>.

The shelties were last breed in the ring, so we went directly with Baby to best In Show. The judge went over the dogs again, and we had to run several rounds before he made his decision. On 4<sup>th</sup>. he put up a border-collie, on third a rough collie, Baby on 2<sup>nd</sup>. And a lovely bearded collie on first. To become 2<sup>nd</sup>. Best in Show was just a fairytale. The winner was multi-champion and really a wonderful dog.

The trophee Baby got was marvellous, and it will fit well in her already quite nice collection. After the show finished we had an extremely nice time with champagne and food at the show-

ground. It took hours before we manage to pack and go to the hotel, but nothing is nicer than a party with happy, good friends. Our Portuguese friend's sheltie-puppy also got Best in Show puppy, a lot to celebrate.

On Sunday we had entered 3 dogs, and also this day it was a mess. Lucille again entered as a male, and Nana first entered as Champion bitch, was put up in Open Class. We managed to change Lucille into the bitches, but Nana could better enter in Open since that is also possible. This day was not as big success for us as the day before. CC, Cacib and BOB went to the blue French bitch, and Baby became 2<sup>nd</sup>. Best Bitch. Lucille got the reserve Cacib and Nana was 2<sup>nd</sup>. In Open with reserve CC. All with excellent. The tricolour male from France got the CC and Cacib and BOS as the day before. It is also nice that the winning divides a bit. Our Drent Dronnia got what she needed CC, Cacib and BOB. That finally made the day for us.

We had a lovely stay in the hotel until Monday, when we visited a monastery from the 14th century, and afterwards drove along the west-coast back to the South.

Next show in Portugal for our girls will be in the end of January, and the weekend after a double-show in Granada in Spain. The show must go on.....

***Congrats both !!***

**We** hope you have enjoyed reading this third issue of the United Shelties Magazine.  
The next issue is scheduled for March 2007.

Yes I hear you ask, would it be possible for me to send something to have published in the magazine ?

That is possible indeed ! Send an email to : [editor@unitedshelties.net](mailto:editor@unitedshelties.net) and we can work something out.

To finish with. I found this postcard in my collection.

The old saint Nick.....  
very different from the Coca-Cola man....

Charles Feijen
